# MANAGEMENT SYSTEM

. . . . .

## **MEANING OF INVOICE UNDER GST**

- GST invoice is a bill or receipt of items sent or services that a seller or service provider offers to a customer. It specifically lists out the services/products, along with the total amount due. One can check a GST invoice to determine said product or service prices before CGST and SGST are levied on them.
- A GST invoice bill also displays the amount of taxes charged on each product or service, that an individual purchases from the seller or provider.

#### **INVOICE MANAGEMENT SCHEME**

- The Invoice Management System, or IMS, is a new feature within the GST portal that will allow recipient taxpayers to accept, reject, or keep invoices filed by their supplier taxpayers pending. Mismatches between invoices filed by suppliers and returns submitted by recipients are a significant issue taxpayers face when claiming input tax credits.
- This facility shall be available to the taxpayer from **1st October** onwards on the GST portal
- Once the suppliers save any invoice in GSTR 1 / IFF / 1A /the same invoice would be reflected in the IMS dashboard of the recipient

#### PENDING

These records will not be considered for GSTR-2B generation for the month, same will be carried forward in IMS itself for further action in subsequent months

### REJECTED

These records will not be considered for GSTR-2B generation

ACCEPTED

There are the accepted records and will be part of GSTR-2B generation;

#### **NO ACTION TAKEN**

These are the invoices/records where no action has been taken by the recipient these will be treated as deemed accepted at the time of GSTR-2B generation

#### Below is a screenshot of IMS dashboard showing summary of all inwards records and action taken

BACK TO DASHBOARD DOWNLOAD IMS DETAILS (EXCEL) COMPUTE GSTR-2B

**KEY POINTS ON IMS** 

- It will go online on 1st October 2024.
- The system will simplify the process of assessing every inward invoice and take individual action on them.
- IMS will not increase any compliance burden, as the system will automatically consider invoices 'deemed accepted' if a taxpayer fails to take action.
- This will improve audit efficiency in large companies and simplify the ITC claiming process for smaller businesses.
- The interface is simple to follow and requires no accounting or auditing expertise.

## **BENEFITS ON IMS**

- **Precision audit:** IMS will allow auditors to check each invoice thoroughly without requiring them to access multiple interfaces, helping to avoid audit errors.
- Minimal error in GSTR-3B: The system offers a summary view of all inward invoices. So, taxpayers do not need to bother about missing out on any invoice before filing GSTR-3B.
- Less complication with pending invoices: Pending invoices get carried forward to upcoming tax periods without affecting GSTR-2B and 3B.
